

School Safety Plan Upgrade Project Details/Pricing

Project Details

The project is designed to help schools and school districts update their current safety planning method to a sustainable process for compliance with state law requiring comprehensive school safety plans. ([Ed code](#))

The project is based on the *Educator's Guide to Comprehensive School Safety Plans, 2021 Edition*. The *Guide* was prepared as part of a strategic partnership between The Los Angeles County Office of Education, the Department of Education, the Department of Justice, the non-profit Campus Safety Group, and other stakeholder agencies. It is the legislative intent resource for school safety plans in California.

Participating schools and school districts will receive:

- A fillable PDF version of the compliance template found in the *Educators Guide*.
- Specially designed training/support for persons with administrative oversight responsibly for safety plans. This is a two-hour, live virtual training
- Specially designed step-by-step training/support for site administrators working directly from the compliance template. This is a two-hour, live virtual training
- Email based "help-desk" with same day responses.
- Virtual office hours for one-on-one consultation

Project Pricing

The project starts at \$4995. This includes 1-9 campuses. There is an additional \$250 fee per campus after nine campuses.
